Editorial

Dear Readers,

Welcome to the June edition of Gulf Extrusions magazine, where we bring you a collection of business topics and activities highlights showcasing remarkable project, innovative product, and our commitment to sustainability and employee well-being.

What deserves starting this edition is that Gulf Extrusions has provided Marriott Business Bay in Dubai with high-performance aluminum products that showcase a gentle glow, enhancing the building's details and adding to its beautiful visual appeal.

Unveiling our modern Aluminium product, we present Montana, a revolutionary addition to our diverse range of systems. Explore here the exceptional features and versatility of this cutting-edge solution, designed to enhance convenience for both residential and commercial applications in the architectural sector.

Within the pages of this edition, we share insights from our recent Gulf Extrusions training sessions, where our team received valuable knowledge and skills to stay ahead in the industry.

At Gulf Extrusions, sustainability is not just a buzzword; it's a core value. We recently hosted an ESG (Environmental, Social, and Governance) Week, dedicated to raising awareness about the importance of environmental conservation, social responsibility, and ethical governance.

Through interactive sessions, workshops, and panel discussions, we engaged our employees in driving sustainable growth and making a positive impact on our planet.

The safety of our employees is paramount, especially during the summer season. We recently hosted a Supervisors Safety Meeting, focusing on promoting healthy summer practices like heat stress prevention, proper hydration, and regular breaks. By equipping our supervisors with the necessary knowledge and tools, we ensure a safe, healthy, and motivated workforce.

We hope you find this issue insightful and inspiring, as we continue to strive for excellence in everything we do.

Enjoy reading!

Gulfex Hosts ESG Week to Drive Sustainable Growth

Delivering lasting impact to generate and sustain value as well as drive growth and improve our environment and societies

As part of our ongoing commitment to promoting the sustainability and enhancing our Health, Safety, and Environment (HSE) practices, Gulf Extrusions organizes ESG Week from Monday 3 June to Friday 7 June 2024.

The event consists of daily on-line ESG sessions looking to amplify the opportunities aiming to increase the HSE awareness and enhance the sustainable growth at Gulf Extrusions.

Committed to providing a world-class virtual experience, the week brings together a unique fusion of industry specialists, HSE pioneers, and the next generation of sustainability leaders.

Through compelling content and hybrid lectures, Gulf Extrusions organized ESG week addresses essential topics including Environmental Aspects and Impacts, Heat Stress Prevention, HIRA / PPE Importance, Back Pain in the Workplace, Obesity Awareness Session, Code of Conduct and Whistle Blower, as part of the company's continuous efforts to increase HSE awareness and educate the Aluminium industry personnel via the ESG forum.

As we move into the hottest months of the year, ESG team conducted on-line session that teaches our employees to take preventive measures such as drinking water frequently, reducing physical exertion and avoiding direct exposure to sunlight and heat as much as possible.

ESG Week

At Gulf Extrusions, we believe that providing high-quality products and outstanding services to our customers is of utmost importance.

We are equally committed to operating in an environmentally and socially responsible manner.

We have therefore taken up the challenge and focus on the provision of sustainable production that can be seen through the consistent process of engaging in formulation of ESG sustainable solutions which we align ourselves with best practices and international standards.

While maintaining a healthy workforce, Gulf Extrusions has incorporated the highest environmental conservation standards within each of its operations.

The event was a resounding success, providing industry professionals and participants alike with truly memorable days of learning and collaboration.

The ESG Week conclusion was attended by Gulf Extrusions CEO, Mr. Omar Shegem, QSEL Manager, Mr. Emran Abu Marar, and other department heads and employees from across the company.

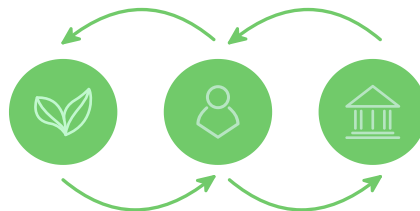

The event featured a range of activities and discussions, highlighting our commitment to sustainability and responsible business practices.

Through its various activities, the ESG event succeeded in increasing HSE awareness and presenting improved ESG standards that are essential for ensuring sustainable practices across Gulf Extrusions.

The company has initiated a range of environment-friendly programs in line with its broader Corporate Social Responsibility agenda and commitment to sustainable development practices.

Through various initiatives such as recycling programs, waste reduction measures, and energy-efficient operations, Gulf Extrusions has demonstrated its commitment to preserving the environment and promoting a greener future.

Here at Gulf Extrusions, we are constantly striving to explore innovative solutions which create a positive impact on the environment and help to achieve the ambitious goals towards building a better tomorrow for our planet and future generations.

Staying Productive and Refreshed during Summer

As part of our commitment to ensuring the health and safety of our employees, we have implemented a midday break in our company.

This scheme is designed to protect our workers from the extreme heat and humidity that can be experienced during the summer months in the UAE.

The midday break requires all employees working in direct sunlight to take a break from work between the hours of 12:30 pm and 3:00 pm, during which time they are encouraged to rest, rehydrate, and stay away of the direct sun.

We conduct awareness sessions during the summer on how to stay healthy and refreshed.

These sessions cover a range of topics, such as the importance of staying hydrated, eating healthy, and exercising safely in the heat. We also provide tips on how to keep cool and comfortable during the hottest times of the day.

By implementing this midday break scheme, we are demonstrating our commitment to creating a safe and supportive work environment for our employees.

The Mid-day Break
From 15th June until 15th September

Gulf Extrusions Hosts Supervisors Safety Meeting Promoting Healthy Summer Practices

Gulf Extrusions conducted Supervisors Safety Meeting on Friday, June 28th, 2024. The meeting covered important topics including the Midday Break Rules, Safe and Healthy Summer Guide, and Personal Hygiene.

The Midday Break Rules require all employees working in direct sunlight to take a break between 12:30 PM and 3:00 PM to rest, rehydrate, and avoid sun exposure.

The Safe and Healthy Summer Guide provided tips on staying cool, preventing heat-related illnesses, and maintaining proper hydration.

Discussions on personal hygiene emphasized the importance of good sanitation practices, especially during the summer months. The meeting ensured Gulf Extrusions' supervisors were well-informed and equipped to promote a safe and healthy work environment for all employees.

We are committed to continually promoting safety, increasing worker involvement and creating a healthier and safer workplace.
