# Editorial

Dear Readers,

Welcome to the August edition of Gulf Extrusions magazine, where we bring you a collection of business topics and activities highlights showcasing our commitment to excellence, innovation and safety.

What deserves starting this edition is Gulf Extrusions' contribution to The Legend Dragon project in Dubai's Jumeirah Village Circle (JVC), where our high performance 'THE NEXT' aluminium system brings a gentle glow, empowering the project with its exceptional properties, as well as enhancing the building's details and adding to its beautiful visual appeal.

Additionally, this issue introduces "THE NEXT", a revolutionary system in our portfolio, combining exceptional design with enhanced functionality for various architectural integration.

Also, we highlight our commitment to employee health and well-being by organizing a wellness

campaign in collaboration with MetLife Gulf and the American Spine Center on Thursday, 15 August.

In line with our safety first approach, Gulf Extrusions conducted a Supervisors Safety Meeting on Wednesday, 21 August, providing attendees with insights into best practices, emerging trends, and practical safety measures.

As we commemorate Emirati Women's Day, we pay tribute to the remarkable contributions made by Emirati women, both within our company and society as a whole.

We also commemorate a day without car accidents, underscoring our steadfast dedication to promoting and maintaining a culture of safe driving every day.

We hope you find this issue insightful and inspiring, as we continue to strive for excellence in everything we do.

Happy reading!

# Gulf Extrusions supplied high-quality aluminum 'Next System' for Legend Dragon project in Dubai JVC.

**Unparalleled Solutions: Gulf Extrusions' Aluminium Empowers Prestigious Ventures.**

## Luxury 4BR Townhouses in JVC Dubai.

- Project** ▶ G+1 (12 Villas).
- Location** ▶ Jumairah Village Circle, Dubai.
- Owner** ▶ Legend Dragon Building Contracting.
- Consultant** ▶ Adnan Safarini Engineering Consultant.
- Main Contractor** ▶ Ideal System Contracting.
- Sub Contractor** ▶ Ideal Engineering.
- System Used** ▶ Next System (Gulf Extrusions).

The building stands as a testament to the fusion of architecture and engineering, giving rise to a true masterpiece.

Watch the photos and experience the seamless integration of Gulf Extrusions advanced systems, superior performance and remarkable aesthetics of our innovative solutions.

We extend our appreciation to all people who work in the project for their trust in Gulf Extrusions.

In the realm of architectural marvels, the building stands apart, captivating the senses with its harmonious blend of meticulous engineering and captivating aesthetics. From the hidden depths to the visible splendor, it exudes an unrivaled refinement that is sure to leave a lasting impression.

Every facet of the building exudes a resplendent sophistication, even extending to the hidden realms. The aluminium elements, with their subtle luminosity, serve as a testament to the intricacy and finesse of the design.

The glass and aluminium bestow a soft sheen that artfully highlights the exquisite details, further enhancing the overall aura of supreme elegance.

## THE NEXT

Thermal break, multi track sliding system designed for heavy duty and wide glazing areas, offering the ultimate cost effective solution in a fashionable design to users.

The special crimped polyamides thermal breaks ensures high thermal isolation, anticipating the fact of high durability, saving on power bills and a convenient application to user.

### System Specifications

Sash Height	3.5 m
Sash Width	2.0 m
Max Sash Weight	300 kg
Glazing	24-40 mm
Max No. of Tracks	5 tracks
Thermal Break	Polyamides

- ✓ *Multi-track up to 5 tracks.*
- ✓ *Integrated system supplied with premium hardware and accessories.*

 Air Leakage (ASTM E 283/E 283M-19)	300 Pa
 Static Water Penetration (ASTM E 331-00 (2016)) Dynamic Water Penetration (AAMA 501.1-17)	600 Pa 600 Pa
 100% Design Wind Pressure (ASTM E 330/E330M-14) 150% Design Wind Pressure (ASTM E 331/E330M-14)	1500 Pa 2250 Pa

# Comprehensive Healthcare Campaign organized for Gulfex Employees.

**As part of our employee health and wellbeing program, Gulf Extrusions, in collaboration with MetLife Gulf and American Spine Center, successfully executed wellness campaign at Gulf Extrusions Dubai on Thursday, 15 August 2024.**

The event offered free health screenings, including blood pressure and blood sugar level checks, height and weight measurements, BMI assessments, bone density, and consultations with general practitioner and medical professionals.

During this campaign, doctors from American Spine Center shed light on bones health, providing valuable insights into maintaining a healthy body and fostering workplace wellness.

We also facilitated one-on-one counselling sessions with doctors from the American Spine Center. They kindly answered queries and provided personalized guidance, empowering our employees to better understand and adopt healthy habits for a happier life.

Attendees were provided with an extensive overview of bones health, gaining profound knowledge on the importance of adopting healthy habits, lifestyle changes and coping strategies which protects employees against most common health issues and illnesses.

“These health and well-being initiatives not only foster a healthier workforce but also contribute to a more vibrant and thriving company culture.”

# PROMOTING A SAFE WORK ENVIRONMENT: GULF EXTRUSIONS CONDUCTS SUPERVISORS SAFETY MEETING FOR ENHANCED SAFETY PRACTICES.

a W W  
We w f df hb

The meeting featured insightful presentations from industry experts at Gulfex, Muhammad Kashif Malik, Senior Safety Officer (QSEL), who shared their expertise on best practices, emerging trends, and practical safety measures.

The session provided supervisors with valuable insights into the latest safety regulations and guidelines, examples of unsafe acts equipping them with the knowledge required to identify potential hazards and mitigate risks effectively.

One of the highlights of the meeting was the opportunity for supervisors to share their experiences and best practices from their respective departments.

By providing supervisors with the necessary tools, knowledge, and opportunities for collaboration, Gulf Extrusions reinforces its safety culture and sets a benchmark for industry best practices.

As the company continues to prioritize the well-being of its workforce, it remains at the forefront of the aluminum extrusion industry, setting an example for others to follow in the pursuit of workplace safety excellence.

**Aluminium is already used to make everything from smartphones to bullet trains and the world's inventors keep finding new ways to use it!**

As in pavilions, convention centers and modern buildings, Aluminium is widely used to build large-scale structures with non-standard shapes and customized designs such as residential and commercial towers, shopping malls, hospitals, schools, universities, stadiums, covered pools and other sports facilities.

Aluminium profiles and sections extruded by Gulf Extrusions are used most frequently in civil engineering, being processed into ceiling, windows, doors, stairs, wall panels, roof sheets and many more uses.

## ***Collaborating for a Brighter Tomorrow: Celebrating Emirati Women's Day.***

يوم المرأة الإماراتية  
EMIRATI WOMEN'S DAY

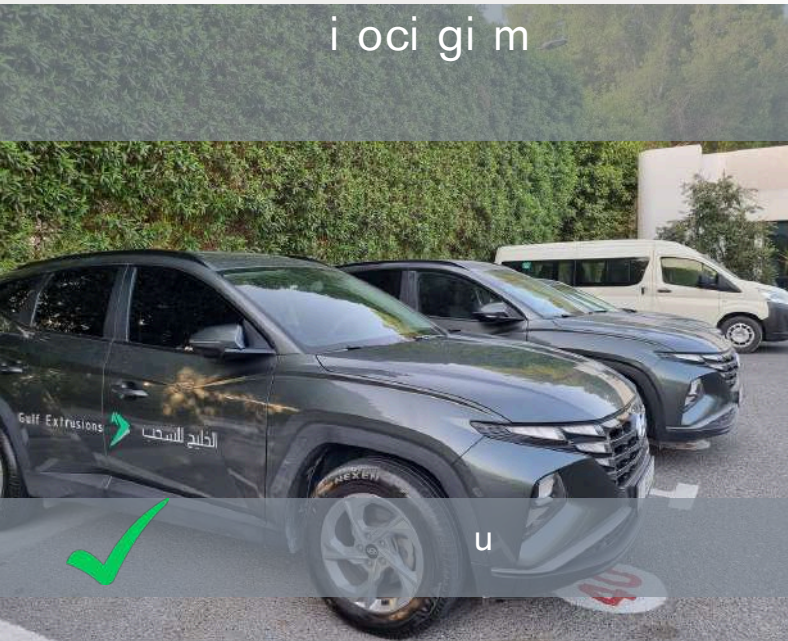

أغسطس 28 August

On the occasion of Emirati Women's Day, observed on 28th August, we at Gulf Extrusions are proud to honor the remarkable contributions of Emirati women in shaping our society and driving progress. This special day serves as a reminder of the pivotal role Emirati women play in various sectors, including our own.

We have implemented various programs and policies specifically designed to empower Emirati women and nurture their professional development. Through targeted training programs, mentorship opportunities, and development initiatives, we aim to equip our Emirati female workforce with the necessary skills and tools to excel in their careers.

Gulf Extrusions congratulates Emirati Women on the occasion of Emirati Women's Day in recognition of their sacrifices and contribution in the development and advancement of the country. Emirati women have left no stone unturned and are continuing to inspire the next generation of thinking women.

## ***“ Participating in UAE's Day Without Accident Initiative: Ensuring Safety and Maintenance Excellence at Gulf Extrusions.***

As a responsible company, we prioritize the well-being of our employees and the communities we serve.

We are delighted to report that all our company fleet cars have successfully maintained a record of being accident-free.

This is a testament to our unwavering commitment to safety and our diligent efforts in maintaining a culture of responsible driving practices.

Our transport team works diligently to ensure that all vehicles undergo regular maintenance, inspections, and necessary repairs to guarantee their optimal performance and safety features.

Through continuous training programs, awareness campaigns and initiatives, we strive to instill a culture of safety consciousness among our workforce.

Together, let us continue prioritizing safety, fostering a culture of accident prevention, and contributing to a safer road environment for all.
