# Editorial

Dear Readers,

Welcome to the October edition of Gulf Extrusions magazine, where we bring you a collection of business topics and activities highlights showcasing our commitment to excellence, innovation, employees health & well-being, and environmental conservation.

What deserves starting this edition is Gulf Extrusions' contribution to Torino project in Arjan Dubai, where our high performance 'The Glide' aluminium system enhances the building's details, and delivers exceptional qualities for the project.

Additionally, this issue introduces "The Glide", a revolutionary system in our portfolio, combining outstanding design with enhanced functionality for various architectural integration.

October also witnessed our 10th and 11th visits from Aster Smart Clinic, held on 10 and 24 October, as part of our dedication to employee health and well-being through consistent and quality healthcare.

In line with our safety first approach, Gulf Extrusions conducted an Internal Fire Fighting Training session, ensuring that safety procedures and emergency preparedness remain strong and effective.

Furthermore, our Gulfex Internal Fitness Challenge began on 24 October, running until 25 November, encouraging a culture of fitness and healthy competition within our team.

Finally, as part of our commitment to sustainability, we participated in a Clean-up Day on 30 October with Emirates Global Aluminium (EGA) and RECAPP. Together, we contributed to a cleaner environment, reinforcing our shared responsibility for a greener future.

We hope you find this issue insightful and inspiring, as we continue to strive for excellence in everything we do.

Enjoy reading!

# The Glide

Thermal break, Lift & slide / sliding system designed for premium properties and hospitality projects, offering wide vision areas through minimal profile design and only 40mm interlock section.

The system offers a high degree of endurance against extreme weather conditions, along with highest degree of safety & security in a modern design. In 800 Pa, static and dynamic water penetration is considered a high result performance in sliding windows.

## System Specifications

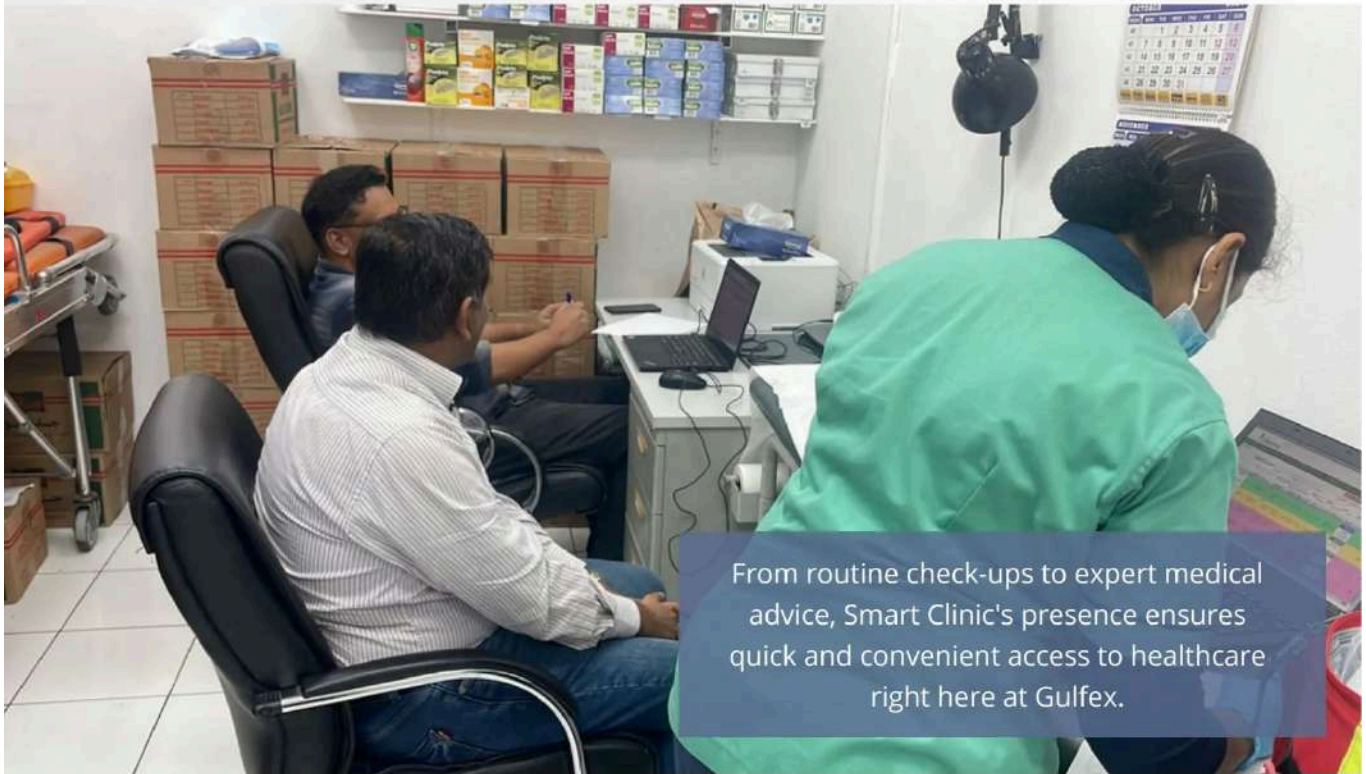

Sash Height	<b>3.3 m</b>
Sash Width	<b>3.0 m</b>
Max Sash Weight	<b>420 kg</b>
Glazing	<b>24-34 mm</b>
Slim interlock	<b>40 mm</b>
Thermal Break	<b>Polyamides</b>

- ✓ **40mm Slim interlock.**
- ✓ **Lift & Slide or normal sliding schemes.**
- ✓ **Integrated system supplied with premium hardware and accessories.**

 Air Leakage (ASTM E 283/E 283M-19)	600 Pa
 Static Water Penetration (ASTM E 331-00 (2016)) Dynamic Water Penetration (AAMA 501.1-17)	800 Pa 800 Pa
 100% Design Wind Pressure (ASTM E 330/E330M-14) 150% Design Wind Pressure (ASTM E 331/E330M-14)	1500 Pa 2250 Pa

## *Smart Clinic Visits – Valuable On Site Medical Services Provided to Our Employees*

From routine check-ups to expert medical advice, Smart Clinic's presence ensures quick and convenient access to healthcare right here at Gulfex.

**As part of our commitment to employee health & well-being, Gulf Extrusions hosts 10th and 11th Smart Clinic visit during October 2024.**

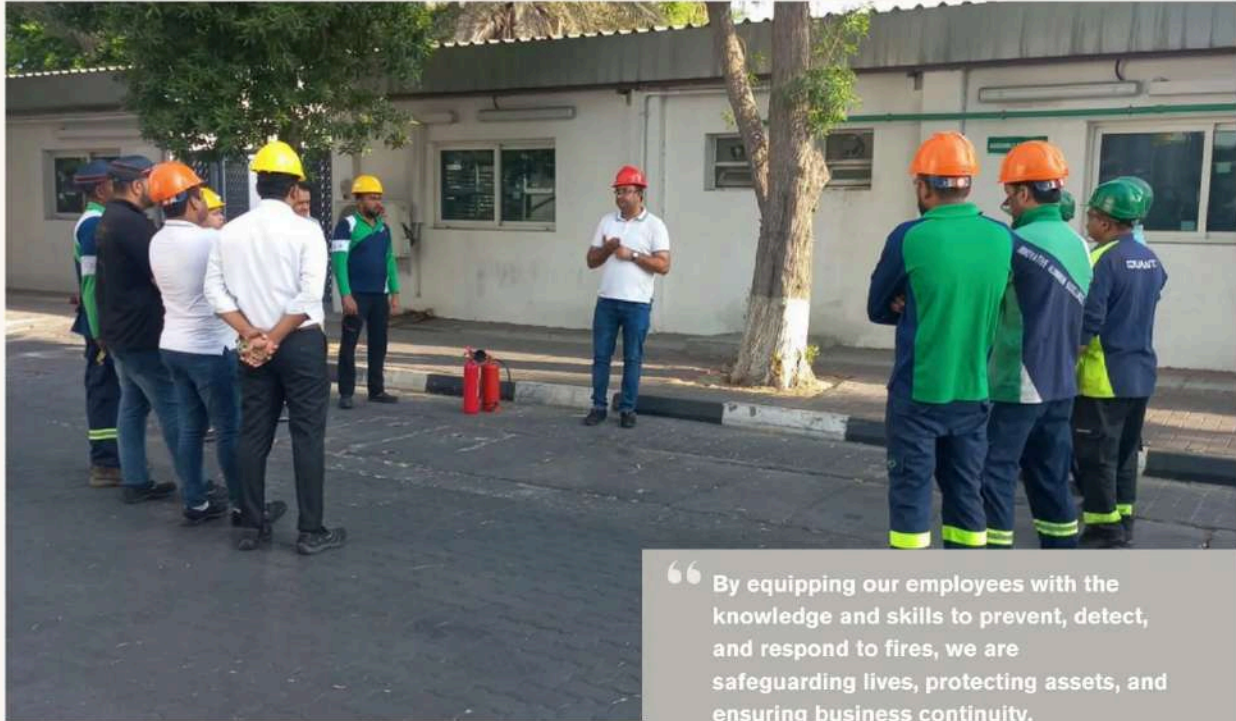

Instead of visiting hospitals and clinics, doctors & nurses come directly to our premises. This innovative initiative aims to save valuable time, particularly for individuals requiring chronic medications.

As part of the Smart Clinic campaign, our employees were offered a comprehensive array of complimentary health screenings, encompassing blood pressure and blood sugar level tests, height and weight measurements, assessments for diabetes, hypertension, & hypotension, on-site blood sampling, as well as consultations with doctors and medical professionals.

## Gulf Extrusions Prioritizes Safety with Firefighting Training

“ By equipping our employees with the knowledge and skills to prevent, detect, and respond to fires, we are safeguarding lives, protecting assets, and ensuring business continuity.

Gulf Extrusions conducted a practical internal firefighting training session on Thursday, 26 September, 2024 as part of employee's health, safety and well being programs at the company.

### Fire Safety: A Top Priority

This comprehensive training emphasized the critical importance of fire safety in our workplace. By providing comprehensive training and fostering a culture of safety, we create a workplace where everyone feels protected and empowered to contribute to a secure environment.

### Compliance and Legal Obligations

Our fire safety training aligns with UAE Fire and Life Safety Code of Practice regulations. Adhering to these standards is not just a legal requirement but a fundamental responsibility. By investing in fire safety, we demonstrate our commitment to creating a secure and compliant workplace.

### Protecting The Assets

Fires can cause devastating damage to property and equipment, leading to significant financial losses and disruptions. Our training empowers employees to identify potential fire hazards and take preventive measures, safeguarding our valuable assets.

### Rapid Response, Enhanced Safety

These training equip employees with the essential skills to respond effectively to emergencies, including evacuation procedures, the use of fire extinguishers, and escape routes. A well-trained workforce is crucial for ensuring the safety of everyone on site.

### Boosting Productivity and Profitability

Beyond safety, fire safety training contributes to increased productivity and profitability. By preventing fires and minimizing disruptions, we optimize our operations and create a more efficient work environment.

# Kicking Off A New Season of Gulfex Internal Fitness Challenge

**Gulf Extrusions kicked off its annual internal fitness challenge on 25 October at Gulfex Basketball and Football courts area in Dubai, with teams from all departments enthusiastically joining in.**

The challenge includes an exciting mix of activities, from Football and Basketball to Cricket, Badminton, Muscle Gain, Weight Loss, and Zumba.

This event reflects the company's commitment to fostering fitness, teamwork, and supporting the Dubai Fitness Challenge.

With teams geared up, courts prepared, and schedules set, the stage is ready for a memorable and rewarding experience for all.

## ENVIRONMENTAL CONSERVATION

### GULF EXTRUSIONS UNITE WITH EMIRATES GLOBAL ALUMINIUM TO CLEAN UP THE BEACH

**Our team participated in the Clean-Up Day on 30th October, in collaboration with Emirates Global Aluminium (EGA) and RECAPP.**

This initiative reflects our shared commitment to preserving the environment, fostering community spirit, and contributing to a greener, cleaner future.

Together, our volunteers worked tirelessly to remove waste, ensuring our local beaches remain beautiful and safe for all.

Here at Gulf Extrusions, we spare no effort to explore new solutions which create a positive impact on the environment and help to achieve the ambitions towards building a better tomorrow for our planet and future generations.

A big thank you to our team and partners at EGA for their effort and energy in making this event a success!
