

## Integrated Management Systems Policy

Our **"Vision"** is to be the global aluminium extrusion centre of excellence.

Our **"Mission"** is to supply top quality aluminium extrusions products and services to the world.

We at, **Gulf Extrusions** ensures that its policy, vision, and mission are translated into objectives and strategic direction through a consistent commitment to the following principles across all operations.

### Quality Management and Operational Excellence

- Prevent defects, reduce variation and waste, ensure product conformity, product safety, on-time delivery, configuration control, and prevent counterfeit parts across all our supply chain,
- Achieve total customer satisfaction by rigorously adhering to all customer specific requirements,

### Energy and Environmental Management

- Protect the environment by preventing pollution, minimize our ecological footprint, and other specific commitments relevant to the context of the organization,
- Ensure the availability of information and necessary resources to achieve objectives and energy targets,
- Prioritize the procurement of energy-efficient products and services, and support design and development activities that improve and enhance energy performance,

### Occupational Health and Safety Management

- Uphold a "safety-first" culture by providing safe and healthy working conditions to prevent all work-related injuries and ill health,
- Proactively identify and eliminate hazards while systematically reducing OH&S risks to their lowest possible levels,
- Ensure consultation and participation of workers and their representative,

### Compliance obligation and continual improvement

- Continual improvement of the quality, environment, OH&S and energy management systems to enhance overall performance,
- Satisfy applicable requirements and fulfilling all compliance obligations, including applicable legal requirements for energy efficiency, energy use, and energy consumption, etc. and other requirements related to our activities, products, services, energy, environmental and OH&S management systems.
